FOSTER DENOVO MERGES CHARITY SOLUTIONS BRAND INTO SECONDSIGHT
-National firm's employee benefits division continues to expand-

The national firm of financial advisers, Foster Denovo Limited (www.fosterdenovo.com) is merging its Charity Solutions employee benefits offering into Secondsight; the company's dedicated employee benefits division (www.second-sight.com).

Foster Denovo Charity Solutions, which was acquired in 2015, has supported a significant number of organisations across the third sector for more than 10 years. It offers advice, strategies and solutions specific to charities' employee benefit and pension needs.

The merger of the two business units follows on from extensive back office integration, and will now be supported by one standalone back office system. In total, Secondsight now works with more than 400 charities and businesses.

Roger Brosch, CEO of Foster Denovo, said: "We felt the time had come to maximise the benefits to both corporate and charity clients, and believe that each business division can learn from the other. It therefore made complete sense to combine the two separate employee benefit teams into one, under the Secondsight brand.

"Our acquisition of the Charity Solutions business last year supports our intent to concentrate and invest in further acquisitions to drive growth in the future.

"We continue to invest in innovation across the entire business to deliver best practice for our clients and this merger will support our efforts in creating efficiencies, as we work towards growth."

Foster Denovo Charity Solutions Partners have written to all existing clients to inform them of the changes.
